

IMPORTANT INFORMATION FOR ALL CREDIT UNION MEMBERS

There are upcoming security changes that will limit access to Level 1 and the Credit Union within the Medical Center.

Access to Level 1 via the elevator from the Main Lobby AND the Employee Entrance from Hawley Avenue will be by St. Vincent's Employee/Volunteer Badge or by a Security Badge issued by the Credit Union for members who are not employees/Volunteers of St. Vincent's or its affiliates. Security Badges issued by the Credit Union will only allow access to Level 1 during business hours of the Credit Union and cannot be used after hours. The Credit Union will be taking photos of members for the Security Badges in the Credit Union office for any member who will require one.

Short term parking will be allowed in the Main Parking Garage in the front of the medical center for all members visiting the Credit Union. St. Vincent's Employees/Volunteers transacting business at the Credit Union must bring their parking ticket with them to the Credit Union for free parking validation. Members with Credit Union issued badges will use their badge upon exiting the parking garage for free parking.

Members requiring a Security Badge issued by the Credit Union are encouraged to stop by the Credit Union at their earliest convenience to have their photo taken enabling your badge to be issued prior to these security changes taking effect, which should be on or about September 1, 2016.

We apologize for any inconvenience this new policy may cause, however these new security measures are for the protection and safety of EVERY individual entering the Medical Center.
